Removes cleanly from cured painted walls.

FABRIC FEEL

Matte adhesive fabric for premium wall and POP graphics.

Surface, Application & Care

PRODUCT

Material	Removable adhesive fabric	Adhesion	Low-tack, repositionable
Finish	Matte	Print Sides	Single-sided
Environment	Indoor	Options	Contour cut

SURFACE REQUIREMENTS

- For smooth, clean, fully cured painted interior walls
- Allow newly painted walls to cure 2–4 weeks before applying
- Not intended for heavily textured walls, raw drywall or easy-release flat paints — test a small area first

APPLICATION

- Apply to a clean, dry, dust-free wall; smooth from the center outward
- The low-tack adhesive lets you peel and reposition during installation
- Removes cleanly without residue when pulled slowly at a low angle

CARE

- Dust gently; spot-clean with a barely-damp cloth
- Avoid soaking the fabric face
