SEE-OUT, GRAPHIC-IN

Perforation shows your graphic outside and keeps the view clear inside.

50/50 OR 70/30

Choose more image or more see-through visibility.

WINDOW & VEHICLE

For storefront glass, vehicle windows and transparent surfaces.

Application, Handling & Care

PRODUCT

Material	Perforated adhesive vinyl	Visibility	50/50 or 70/30 open area
Print Sides	Single-sided	Environment	Indoor & Outdoor
Options	Gloss or no laminate	Size	Custom

SURFACE & APPLICATION

- Apply to clean, dry glass — wash and dry fully first
- Squeegee from the center outward and press the edges firmly
- A clear over-laminate protects the printed face outdoors and on vehicles
- Perforation lets people inside see out while your graphic shows outside

CARE

- Clean gently with a soft cloth
- Do not pressure-wash — forcing water into the perforations can lift the edges
- Avoid abrasive pads
